 N/A

My boat has had several new keels in the late 90's before my ownership, all basic shape and weight change.

2013 I modified boat by filling in mast hollow above hounds, adding laminate to entire mast, added mast head spinnakers, added a sprit, removed spin pole, changed keel to a t-keel & bulb, removed 3500lb internal balast, reduced jib to 131%, and reduced E, went to square top main. In July 2016, added 712 lb to keel fin. Increased to present, went back to pin top main, increased genoa overlap to 145%, shortened sprit to current and added pole same length as sprit.

Does your boat have a self-bailing cockpit, fixed perths, galley facilities, and the ability to be self supporting for a weekend cruise? Yes No
